Free Whitening for Life

The Free Whitening for Life Program is in place to offer our patients an “added bonus” for keeping their appointments and following through with treatment recommended to keep their teeth and gums healthy.

At your first appointment we will make impressions for your custom-fit trays that will be ready for pickup in 1 week. You will receive your trays along with 2 whitening gel syringes, a **\$354 value!**

This offer applies as long as the following conditions are met:

Commit to your re-care appointments (which are twice a year or more if you are on a periodontal maintenance plan) without missing or canceling any appointment without the required 48 hour notice, and completion of all recommended treatment. You must also maintain a zero balance within a 30 day period of the first billing cycle.

You are eligible to receive 2 **free** syringes every 6 months to continue whitening your smile. In cases where extra syringes are wanted, they can be purchased through our office at an additional fee.

We are confident that your commitment to continuing care appointments will not only help reduce your dental expenditures, but reduce your need for emergency care. Welcome to the Orange Door Dental Group Free Whitening for Life Program.
